

DEVELOPMENT PLAN 2009

PROJECTS 2009

1. Securness Of Facilities and Personnel Licenses concerning all bases and deals with local companies (Restaurants. Markets etc.).
2. Construction of Sea corridors and Moorings in all bases.
3. Installation of Tower and Electronic Equipment in all bases.
4. Installation of Jetties at the bases with the following order:
 - 4.1. AFISSOS
 - 4.2. MILINA
 - 4.3. VOLOS (MARINE)
 - 4.4. ACHILLIO PTELEOS
 - 4.5. CHORTO
 - 4.6. PIGADI PTELEOS
 - 4.7. VOLOS (WATER BREAK)
 - 4.8. VOLOS (XENIA)

The Degree of difficulty of the procedures and the financing Scope have been valuated.

5. The further development of services per base (movable Units & Equipment etc.) has to do with the special interest of the partners (questionnaire) and the Real Facts of each region.

All the procedures will be dispatched by Argonautical Park Ltd. Company.

In general

The whole Network/ Argonautical Bases- The entire Pagasiticos Gulf is confined from the Partners as ONE BASE/ MARINE.

We are going to provide all Partners with the facilities according to their actual needs. We provide a questionnaire. (Day of Welcoming etc.)

The whole Network is Organized and supervised pictorially from our Base in Afissos. (Control Center).

We will give away to all partners Offices in Afissos Base and the Network of Support Services of Yachting.

All the yachts of the Partners will be equipped with a supervising system with transporter which is co-ordinated from the control center.

The Technical Support and Transportation are organized in total for the whole Pagasiticos Gulf (Agencies, Speedboats, Divers, Provisioning, Electrician. Mechanic etc.) by our Control Center.

Support will be given to companies- partners that are going to finance all the above facilities according to the attached budget.

Significant

The Suggested projects are contemplated by the 4th Communal Framework of financial Support and the equivalent businesses are being subsidized. Until the spring of 2009 the "Operations" will be published and the same period the application of the involved Businesses will be deposited.

The existing company form of "Argonautical Park" covers the proscription of accession in projects of such scale. Having already materialized with great success a relevant financing investment from E. U., practically it is considered as being certain that the investment proposals of "Argonautical Park" will be chosen in order of precedence. The Materialized Proposal has been chosen as the first of all the rest!

An extended form for new investors through the existing company and its action leads with safety in the successful Materialization of the Plan in Total.

Argonautical Park will have installed the suggested spots until the Spring of 2009, with applications that has already developed. It is aware of the processes and commands the related specialized workforce.
